1 CPD Accredited

8:15am-9:00am

Supply Chain Risk Cover – Important Coverage Pointers & Key Questions

Key Learning Objectives

- **Spot the gaps** – Identify where traditional cargo and property policies may leave clients exposed across their supply chain.
- **Identify the risks** – Recognise key transit, storage, disruption, liability and consequential loss exposures affecting your clients.
- **Ask the right questions** – Know what information to gather to structure appropriate Supply Chain Risk Cover.
- **Recommend with confidence** – Understand the key coverage features and how to explain their value to clients.

Practical knowledge designed to help you have better risk conversations with your clients and identify new opportunities within your existing portfolio.

1 CPD Accredited

Attendees must be present for the full duration of both sessions to be eligible for 2 CPD points.
